-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1-14, 16, 18, and 20 are pending.
2. Claims 15, 17, and 19 have been cancelled.
3. In the response filed March 2, 2009, Applicants have elected Group I, claims 1-14 and 16, with traverse.

Response to Applicants Remarks about The Improper Restriction Requirement

Applicants state the traversal is on the basis that a search for the compound of Group I would necessarily result in discover of any method of treatment. The search and examination of both groups can be made without undue burden on the Examiner.

It is the Examiner's position that:

- The compounds of formula I are drawn to independent and patentably distinct subject matter.
- The methods of using the compounds of formula I are drawn to independent and patentably distinct subject matter.
- See claims 18 and 20, which discloses multiple uses, which are not related.
- Under MPEP 806.05(h), the inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different

process of using that product. In this instance, the product as claimed can be used in a materially different process of using that product.

- There is an undue burden is to search the entire scope of claims when multiple inventions are claimed.
- The requirement is still deemed proper.
- The requirement is therefore made FINAL.

4. Claims 18 and 20 are withdrawn from consideration. These claims have not been canceled.

5. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 1-14 and 16 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

- A. It is suggested that the term "general" should be deleted.
- B. Claim 16 is improperly multiply dependent.
- C. Claim 16 depends upon two claim sets which is improper.

D. At claim 16, it is suggested that the phrase "characterized in that" should be amended to read as "wherein".

8. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) The invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

9. Claims 1-4, 6-10, 13, 14, and 16 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Erian et al (Reference R1, cited by Applicants).

The instantly claimed compound is disclosed. At page 749, Scheme 13, see compound 15. The compound is depicted below:

The claims are fully met when A = aryl ring wherein R¹ or R² is substituted by halogen; R⁷ and R⁸ are hydrogen; R⁵ = CH₃; R⁶ = CN; R⁴ = -C(O)Oalkyl; Y¹, Y², Y⁴, and Y⁵ are CH; and R³ or R⁹ is halogen.

10. The Information Disclosure Statement filed February 25, 2005 has been considered.

11. Reference U is cited to show the state of the art. At page 248, Scheme 1, see

compound 5. The compound is depicted below:
